

Accent Equity 2012 completes fundraising at hard cap of SEK 3.8 billion

Accent Equity 2012 has successfully completed its fundraising at the hard cap of SEK 3.8 billion. Interest from both existing and new investors was strong and the fundraising was completed in record time.

In addition to the investors supporting earlier Accent Equity funds, a very limited number of blue chip investors were invited to join the 2012 fund.

20% of the total commitments came from investors in the Nordic region, 70% from the rest of Europe and 10% from North America and Asia.

The 2012 fund is the 7th fund raised since 1994. The strategy of Accent Equity 2012 remains the same as for Accent predecessor funds, with a focus on lower mid-market transactions in the Nordic region (Sweden, Norway, Finland and Denmark).
