

## **ATS and Service Link merge with Orwak Sweden and become the market leader in sales and service of compacting waste equipment**

San Sac Group acquires the two companies Avfallsteknik Skandinavien AB (ATS) and Service Link Skandinavien AB (Service Link). ATS is the market leader in sales of waste compaction equipment and Service Link offers a nationwide service organization for compaction equipment. Fredrik Jaginder, CEO of San Sac Group states:

"With the acquisition of ATS and Service Link and the upcoming merger with our Swedish sales company Orwak Sverige AB, we can offer the Swedish market the most complete product range of waste compaction equipment. In addition, we get a nationwide service organization that ensures reliable operation at our customer sites.

The former owners of ATS and Service Link, Risto Sunell and Daniel Egeberg, remain in the business. Daniel Egeberg comments:

"The fact that our organization now gets access to the high quality products and the competence in development and production of balers, which Orwak is in possession of, allows us to offer even more attractive solutions to the market."

Risto Sunell, adds:

"The merged business gains a position that enables us to become an even larger player nationwide and strengthens our service offer further in the Swedish market."

*San Sac Group: San Sac Group was formed in 2014 when San Sac and its subsidiaries ILAB Container and Rubaek merged with Enviropac. The group expanded when acquiring the baler manufacturer Orwak in 2015. With the acquisition of ATS and Service Link, San Sac Group has 275 employees and a turnover that amounts to 115 M EUR.
